

Energy Plus

Enhance Your Home

Introduction

Welcome to Energy Plus Windows and Doors, a fantastic range of products designed with features and benefits to truly enhance your home.

The Energy Plus range of Windows and Doors include all the latest design features as standard, PLUS you still have the opportunity to add your own choices and style to make the products you choose seem like they were designed just for you!

Whether you want a different style or a different colour, or whether you want enhanced security the choice is yours. Just ask your installer for details.

Whatever additional choices you make, you can be assured that your new Energy Plus windows and doors are guaranteed to be thermally efficient and pleasing on the eye.

Appearance

What better way to enhance your home than with stylish new Energy Plus windows and doors. Their sculptured features provide a warm and contemporary feel for your home, while the ultra slim sightlines ensure you enjoy the maximum amount of natural light. With an unlimited range of styles and sizes available you can be sure that the windows and doors you choose will truly enhance the appearance of your home.

Performance

Supporting all of the other great features, the Energy Plus range of windows and doors also benefit from being the most thermally efficient products of their type on the market. Their uniquely designed multi-chambered systems prevent cold air from the outside getting in, keeping the temperature in your home up and the cost of your fuel bills down. Coupled to incredibly high performing double or triple glazed sealed units the Energy Plus range of windows and doors out performs the highest energy performance standards currently in existence and are guaranteed to keep you warm for years to come.

Choice & Style

Great appearance, superb thermal efficiency, incredible security AND great choice. You can now choose windows and doors with all of the above PLUS you can choose from a great range of styles and colours. You can choose styles to match your existing windows and doors or change the appearance completely to a more contemporary style to enhance your home.

All Energy Plus windows and doors are available in a wide range of colours including White, Cream, Rosewood, Light Oak, Irish Oak, Chartwell Green, and Black. Just ask your installer for details of the full range available.

PLUS

You can decide what colour handles you want, with a great range available to fully compliment your choice of window and door colours.

Change the appearance of your windows and doors completely to a more contemporary style to enhance your home

The Environment

With your new Energy Plus windows and doors making a real impact on keeping energy usage and costs down they are already environmentally friendly products. But add in the fact that the PVCu is entirely lead free in its composition, and that all other elements of your new windows and doors are designed to be easily re-cycled at the end their lifetime, then you can rest assured that when you choose Energy Plus windows and doors you are choosing truly environmentally friendly products to install into your home.

Doors

Energy Plus Doors are available in a range of styles and sizes and are designed with an appearance to truly compliment your choice of windows. Available in the same wide range of colours, and designed with the same emphasis on safety and security, you can choose from a wide range of door types and styles. Whether you want a single PVCu door for the front or rear of your home, or whether you want to choose from a double French door, a Patio door, or a brand new Bi-folding door for the wider openings in your home the Energy Plus range can accommodate all your requirements.

Patio Plus Doors

Patio Plus Doors are a brand new take on a traditional product. Combining great appearance and high security with outstanding thermal performance, the Patio Plus patio door benefits from a super smooth and silent running action which will be a real feature within your home. Available in two, three or four paned styles the Patio Plus doors are available in the same wide range of colours as the rest of the Energy Plus window and door range.

Bi-Fold Plus Doors

Bi-Fold Plus Doors are the most contemporary and desirable range of doors available to homeowners today. Combining all the features you would expect in terms of appearance, thermal performance, security, and colour choices, the Bi-Fold Plus Door provides a life-style choice not available in any other product. To truly enhance your home a Bi-Fold Plus Door is without comparison. Available from two panes to six panes Bi-Folding doors bring a whole new dimension to your home.

Conservatories

Built to the highest standards from a combination of Energy Plus Windows and Doors with all their outstanding features, conservatories are available in a range of traditional and bespoke styles. Whether you are looking for a Lean To, an Edwardian, or a Victorian style, or whether you want to choose a bespoke style individual to you, you can be assured that whatever your choice an Energy Plus conservatory will truly enhance your home.
